

P = Parking

1. Lighthouse to Lighthouse:

10 mi. RT. Follow the Oregon Coast Bike Route for a moderately challenging ride between Yaquina Bay Lighthouse (1871) and Yaquina Head Lighthouse (1872). This route takes the rider through the Nye Beach Historic District, offers stunning ocean views, and has enough elevation change to provide a good workout.

2. City Parks Loop:

7 mi. RT. Easy to moderately challenging. Pack a picnic and enjoy time in any one of the nine City parks on this loop! From bird watching to skateboarding or whale watching to ball games, each park provides a special place for those who pass through.

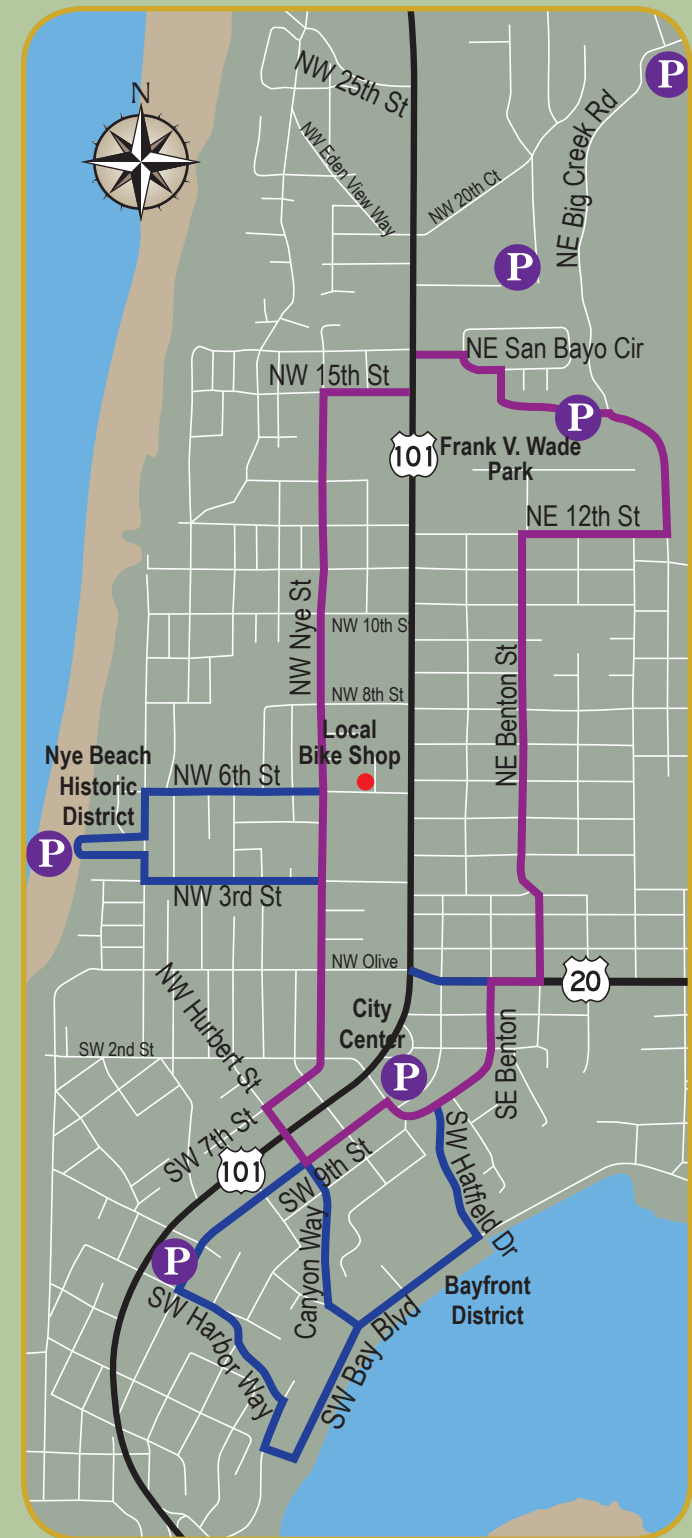

3. Shopping Route:

5 mi. RT. Easy except for one steep hill. Newport offers plenty of shopping opportunities from department stores to small specialty shops and this route will get you pointed in the right direction. The most direct route is to travel on US 101 (black line); the purple line shows alternate routes east and west of the highway, and the blue lines take you to the Nye Beach, Bay Front, and City Center Districts.

4. Bayfront to Nye Beach:

8.75 mi. RT. This challenging ride takes you through the historic Nye Beach and Bayfront districts and along Yaquina Bay before beginning the long and winding climb up to Yaquina Heights and splendid views. Entails a little over ½ mile travel on Hwy. 20.

▼ 5. City to City:

27 mi. RT. Moderately challenging, rolling
terrain with a steep hill in either direction.
This is a beautiful ride along the Yaquina
Bay and River and provides an excellent
opportunity to see plenty of boats as well as
shorebirds, waterfowl, wading birds, eagles,
and ospreys. Wide shoulders and smooth
pavement for most of the route.

▲ 6. South Beach Ride:

9 mi. RT. Easy ride, mostly flat. This fun ride takes you through sand dunes to the South Beach Jetty, then winds its way through the South Beach Marina, along the estuary, and out to Idaho Point on King Slough. Great views and good bird watching.
